

We understand that the COVID-19 outbreak presents a challenging time for everyone and we, like everyone else, are taking measures to protect our employees, their families and our members. We're encouraging our staff to limit travel and utilize online and virtual resources in an effort to help limit person to person contact and contain the spread of the virus.

We are following CDC guidelines <https://www.cdc.gov/>, but we will continue to be available to respond to your questions, needs and servicing of your insurance products and investment services. We are in communication with our providers and we don't foresee any disruption in our systems or servicing.

Our Financial Advisors are available to discuss any questions you may have concerning your investments, the market volatility, and status of your account. We are continuing to monitor market conditions and working with our providers we will be able to respond as necessary to any changes.

Our Member Services Team will continue to take your calls, provide personal assistance in our office and provide enrollment in any of our products and services. Online enrollment services and other information is always available 24/7 through www.geba.com and www.gebawealth.com.

GEBA and GEBA Wealth Management will continue to remain diligent in protecting our staff, their families and our members throughout this time. We will provide updates to you as needed either through email or on our websites.

Please stay safe and as always, thank you for being a valued member.

Sincerely,

Michele Rackey
CEO

GEBA
